

## Screening for Future Fall Risk

---

*This measure is to be reported for all patients aged 65 years and older seen by the clinician — a minimum of **once** per reporting period.*

### Measure description

Percentage of patients aged 65 years and older who were screened for future fall<sup>1</sup> risk (patients are considered at risk for future falls if they have had 2 or more falls in the past year or any fall with injury in the past year) at least once within 12 months

### What will you need to report for each patient aged 65 years and older for this measure?

If you select this measure for reporting, you will report:

- Whether or not you screened the patient for future fall risk. Patients will fall into one of two categories described below:
  - At risk — Documentation of two or more falls in the past year or any fall with injury in the past year OR
  - Not at risk — Documentation of no falls in the past year or only one fall without injury in the past year

### What if this process or outcome of care is not appropriate for your patient?

There may be times when it is not appropriate to screen the patient for future fall risk, due to:

- Medical reasons (eg, patient is not ambulatory)

In these cases, you will need to indicate that the medical reason applies, and specify the reason on the worksheet and in the medical chart. The office/billing staff will then report a code with a modifier that represents these valid reasons (also called exclusions).

---

<sup>1</sup>A fall is defined as a sudden, unintentional change in position causing an individual to land at a lower level, on an object, the floor, or the ground, other than as a consequence of sudden onset of paralysis, epileptic seizure, or overwhelming external force (Tinetti et al., 1997).

## Screening for Future Fall Risk

### PQRI Data Collection Sheet

Patient's Name	Practice Medical Record Number (MRN)	Birth Date (mm/dd/yyyy) / /	Gender <input type="checkbox"/> Male <input type="checkbox"/> Female
National Provider Identifier (NPI)		Date of Service	

<b>Clinical Information</b>			<b>Billing Information</b>
<b>Step 1 Is patient eligible for this measure?</b>			
	<b>Yes</b>	<b>No</b>	<b>Code Required on Claim Form</b>
Patient is aged 65 years and older.	<input type="checkbox"/>	<input type="checkbox"/>	Verify date of birth on claim form.
There is a CPT E/M Service Code for this visit.	<input type="checkbox"/>	<input type="checkbox"/>	Refer to coding specifications document for list of applicable codes.
If <b>No</b> is checked for any of the above, STOP. Do not report a CPT category II code.			
<b>Step 2 Does patient meet or have an acceptable reason for not meeting the measure?</b>			
	<b>Yes</b>	<b>No</b>	<b>Code to be Reported on Line 24D of Paper Claim Form, if Yes (or Service Line 24 of Electronic Claim Form)</b>
<b>Screening for Future Fall<sup>1</sup> Risk</b>			
Performed — Patient is at risk (documentation of two or more falls in the past year or any fall with injury in the past year)	<input type="checkbox"/>	<input type="checkbox"/>	1100F
Performed — Patient is not at risk (documentation of no falls in the past year or only one fall without injury in the past year)	<input type="checkbox"/>	<input type="checkbox"/>	1101F
Not performed for the following reason: • Medical (eg, patient is not ambulatory)	<input type="checkbox"/>	<input type="checkbox"/>	1100F-1P or 1101F-1P
Document reason here and in medical chart. _____ _____			If <b>No</b> is checked for <b>all</b> of the above, report 1100F-8P (Patient was not screened for future fall risk, reason not otherwise specified.)

<sup>1</sup>A fall is defined as a sudden, unintentional change in position causing an individual to land at a lower level, on an object, the floor, or the ground, other than as a consequence of sudden onset of paralysis, epileptic seizure, or overwhelming external force (Tinetti et al., 1997).

## Screening for Future Fall Risk

### Coding Specifications

Codes required to document a visit occurred:

- A CPT E/M service code is required to identify patients to be included in this measure.

#### CPT E/M service codes

- 97001, 97002, 97003, 97004 (physical medicine and rehabilitation),
- 99201, 99202, 99203, 99204, 99205 (office-new patient),
- 99212, 99213, 99214, 99215 (office-established patient),
- 99304, 99305, 99306, 99307, 99308, 99309, 99310 (nursing facility),
- 99324, 99325, 99326, 99327, 99328, 99334, 99335, 99336, 99337 (domiciliary),
- 99341, 99342, 99343, 99344, 99345, 99347, 99348, 99349, 99350 (home visit)

Quality codes for this measure (one of the following for every eligible patient):

#### CPT II Code descriptors

(Data collection sheet should be used to determine appropriate combination of codes.)

- **CPT II 1100F:** Patient screened for future fall risk; documentation of two or more falls in the past year or any fall with injury in the past year
- **CPT II 1101F:** Patient screened for future fall risk; documentation of no falls in the past year or only one fall without injury in the past year
- **CPT II 1100F-1P OR 1101F-1P:** Documentation of medical reason(s) for not screening for future fall risk (eg, patient is not ambulatory)
- **CPT II 1100F-8P:** Patient was not screened for future fall risk, reason not otherwise specified

Physician Performance Measures (Measures) and related data specifications, developed by the American Medical Association (AMA) in collaboration with the Physician Consortium for Performance Improvement (the Consortium) and the National Committee for Quality Assurance (NCQA) pursuant to government sponsorship under subcontract 6205-05-054 with Mathematica Policy Research, Inc. under contract 500-00-0033 with Centers for Medicare & Medicaid Services.
