

PRACTICE (MANAGEMENT) MAKES PERFECT: DO YOU WANT TO PERFECT YOUR PRACTICE?

The Business and Research Administrators in Neurology Society (BRAINS), an affiliate of the American Academy of Neurology (AAN), has an exciting opportunity for practice managers in clinical and academic settings.

DO YOU APPRECIATE VALUE?

Practice managers who become members of the AAN will save approximately 40-80% on the AAN's Annual Meeting and regional program fees, where they can get the latest information on effective and efficient practice management techniques and network with their peers. BRAINS members also receive discounted member rates on AAN management tools and merchandise.

DO YOU NEED TO STAY INFORMED?

BRAINS members receive free subscriptions to *AANnews*, *Neurology Today*, and the *Neurology Journal* providing in-depth and timely reports covering critical issues important to practice managers.

DO YOU WANT TO WORK MORE EFFICIENTLY?

As a member of BRAINS, practice managers receive discounts on the AAN's convenient practice management tools like the ICD-9 Coding Book and Online CPT, and the E/M Pocket Coding Guide. BRAINS members also have access to the AAN's suite of PDA applications and updates.

DO YOU LIKE CONNECTING WITH YOUR COLLEAGUES?

BRAINS puts you in touch with practice managers through the BRAINS listserv, the AAN membership directory, and networking opportunities at the AAN Annual Meeting and regional programs. And the BRAINS newsletter keep practice managers in the loop on BRAINS activities and opportunities to improve your management skills.

DO YOU NEED ANOTHER REASON TO JOIN BRAINS?
