Axon Registry™ Participant Update

The Axon Registry PARTICIPANT UPDATE is a monthly email that informs users on Axon Registry related material including announcements, measures, regulatory, statistics, and events.

ANNOUNCEMENTS

Axon Registry Participants web page launched
On the Participants web page there are links to:

› User Dashboard portal
› User Group webinar recordings
› Participants monthly email updates
› Axon Registry related articles

Requesting your “Lessons Learned”

› Share a story or lessons learned about implementing the registry or mapping the data in your practice. Email Axon Registry.

MEASURES

Get involved in measure development projects now

› The AAN continues to seek input from those who have experience implementing measures in practice (e.g., abstractors, IT supports, data analytic staff) to serve on measure development projects. If you are interested in participating or would like more information, please contact Amy Bennett, Manager, Measure Development.

› The AAN will kick off a measure development project addressing essential tremor in Spring 2016. The AAN needs input from physicians, patients, nurses, advanced practice providers, and payers. If you are interested in applying for the work group, please contact Amy Bennett, Manager, Measure Development.

REGULATORY

› PQRS—The 2016 reporting period began on January 1. All participants
should review measurement specifications to ensure they meet the reporting requirements for this year. Measure specifications and measures reportable through the program can change from year to year so it is important to review the measures each year.

STATISTICS

Registry Statistics

› 38 practices
› 511 registered providers
› 206 integrated providers
› 227,000 total patients
› 608,000 total visits
