Quality Improvement at the AAN Annual Meeting
Going to Vancouver, BC, for the AAN Annual Meeting? If so, plan to make quality improvement part of your journey!

› Attend QI courses to brush up on your quality improvement skills
› Anup Patel, MD, will engage attendees on Saturday at 8:00 a.m. in West 110 I Talk in design and implementation of a QI project utilizing AAN's Women with Epilepsy measure. Read more.
› On Sunday at 1:00 p.m. in West 210, Quality Improvement in Practice (C73) will provide attendees with resources to use measures in practice to improve patient care. Read more.
› Visit the Learning Lab to discuss measures and Axon Registry
› Bruce Sigsbee, MD, FAAN, Registry Committee chair, will present on the Axon Registry on Sunday at 8:00 a.m. in West 110 I Talk. Read more. Stop by to discuss your experiences with others.

Share Lessons Learned
Do you have experiences with the Axon Registry to share to benefit others? Here are some examples:

› Do you have tips for successfully capturing data in the medical record?
› How did you gain support for Axon Registry?
› Have you experienced barriers to getting data?

Submit a story or lessons learned about implementing the registry or mapping the data in your practice. Email the Axon Registry.

MEASURES
New Performance Measures on User Dashboard

- Seven new performance measures are now appearing in the registry user dashboard for participants. Performances rates will be zero or very low until the mapping for these new measures is complete.
- Measures address the following conditions: epilepsy, headache, MS, sleep apnea, and crosscutting measures.
- For more information on these seven measures go to Registry Quality Measures on the AAN Axon page, then Quality Measures In-Progress for Entry into Axon.

Neurologists Needed for a Primary Headache Project

The AAN is looking for neurologists treating primary headache to participate in a project to test the validity and reliability of two different headache measures:

- Overuse of opioids for the treatment of primary headache
- Quality of life assessment for patients with primary headache

You can choose to participate in either one or both projects. Contact Gina Gjorvad to enroll. Visit the AAN Quality Measures page for more details. The AAN will be hosting a webinar for interested practices in early summer to provide more information on the project.

STATISTICS

Registry Statistics

- 39 practices
- 520 registered* providers
- 210 integrated* providers
- 241,000 total patients
- 658,000 total visits

* Integrated providers have practice data in the Axon Registry. Registered providers are working with Axon Registry and may not have practice data in the registry.

EVENTS

Axon Registry User Group

› An Axon Registry User Webinar is held the third Tuesday of every month at 10:00 a.m. CT. A webinar invite is sent the week before the call. Email the Axon Registry if you are a participant and would like to receive an invite for the Axon Registry User Group calls.
› Suggest the best time and day for the User Group call so more participants can attend
› April 19, 2016: User Group: canceled due to the AAN Annual Meeting
› May 17, 2016: User Group: practice experience highlighted
› Data Privacy and Security: February 16, 2016, webinar recording

LINKS
