Support a CME Course

Overview

CME Programs
The 2015 Annual Meeting has an extensive array of therapeutic areas for organizations to support.

See listing of programs beginning on page 70 »

Benefits each supporter receives and is recognized with organization name on:

- CME program syllabi
- Signage
- Title slides
- Inclusion in Annual Meeting On Demand
- CME program tickets (number based on amount of support and per AAN staff discretion)

In an effort to address the desire to have multiple supporters for programs, the AAN is encouraging a maximum of three supporters for each of the listed therapy programs: Stroke, Multiple Sclerosis, Neuromuscular Disease, Movement Disorders, Headache, and Epilepsy. The AAN believes this will address potential issues of bias or conflict of interest.

Support Fees:
8-hour Skills Course - $45,000
8-hour Course - $40,200
4-hour Skills Course - $40,950
4-hour Course - $38,500
3-hour Course and Therapy Programs - $37,850
2-hour Course - $35,600
90-minute Course - $35,300

### Support a CME Course

#### 2015 Annual Meeting Topic Listing

**Aging, Dementia, Cognitive, and Behavioral Neurology**

- C15 Severe TBI: From ICU to Rehabilitation
- C17 The Neurology of Social Behavior
- C29 Primer of Behavioral Neurology
- C44 Practical Psychopharmacology for Neurologists
- C54 Cognitive-Motor Disorders: Chalk Talk
- C56 Vascular Cognitive Impairment and Dementia: Current Status and Future
- C72 Dementia Overview
- C100 Mild Cognitive Impairment: Implications for Clinicians
- C19 Treating Dementia in an Age of Mixed Disease
- C110 The Dynamic Brain in Health and Disease: Plasticity and Reprogramming
- C114 Morning Report: Behavioral Neurology
- C118 What Neurologists Really Need to Know About Normal Pressure Hydrocephalus
- C111 The Promise of Novel Biomarker Approaches in Advancing Treatment
- C112 Obesity and Neurological Disorders
- C125 Case Studies: Dementia
- C132 Differential Diagnosis of Dementia: Linking Clinical Syndromes to Biomarkers
- C136 Assessment of Rapidly Progressive Dementias and Related Neurologic Conditions
- C149 Improving Accuracy of Dementia Diagnosis: Case Studies with Both Imaging and Neuropathology
- C154 Attention Deficit Hyperactivity Disorder Across the Lifespan
- C160 Non-Alzheimer’s Dementia

### Cerebrovascular Disease and Interventional Neurology

- C7 Controversies in the Management of Incidental and Asymptomatic Cerebrovascular Lesions
- C12 Management of Asymptomatic Cerebrovascular Lesions
- C41 Therapy of Stroke
- C74 Cerebrovascular Disease
- C105 Neurohospitalist 2.0: Next Steps in the Evolution
- C106 Neuro Flash: Acute Stroke Management
- C112 Skills for Stroke Emergent Treatment Skills Pavilion
- C119 Treating Dementia in an Age of Mixed Disease
- C110 The Dynamic Brain in Health and Disease: Plasticity and Reprogramming

### Child Neurology and Developmental Neurology

- C34 Child Neurology I
- C50 Child Neurology II
- C15 Pediatric Neurotrauma: From Coma to Concussions
- C83 Concussion Assessment and Management in the Youth Athlete
- C94 EEG in Children: Developmental Maturation, Variants, Epilepsy Syndromes, and Identification of Surgical Candidates
- C102 Syndromes of Autonomic Dysfunction in Children and Adolescents
- C108 Autism Spectrum Disorders - What We Know and Where We Are Going
- C110 The Dynamic Brain in Health and Disease: Plasticity and Reprogramming
- C131 Neuro Flash: Child Neurology
- C139 Stroke In Young Adults
- C154 Attention Deficit Hyperactivity Disorder Across the Lifespan

### Epilepsy/Clinical Neurophysiology (EEG)

- C1 Status Epilepticus
- C10 Critical Care EEG Monitoring
- C22 Neuro Flash: Epilepsy
- C35 Clinical Epilepsy
- C57 Therapy of Epilepsy
- C63 Treating the New-onset Epilepsy Patient

### C79 Overview of Parkinson’s Disease and Movement Disorders

### C85 Clinical Usefulness of Botulinum Toxin and Treatment of Dystonia Skills Pavilion

### C90 Approach to the Shaky Patient

### C101 Hyperkinetic Movement Disorders: Diagnosis and Treatment

### C11 The Promise of Novel Biomarker Approaches in Advancing Treatment

### C127 Case Studies: Unusual Movement Disorders

### C131 Neuro Flash: Child Neurology

### C134 The Dystonias: Diagnosis, Treatment, and Update on Causes

### C141 Movement Disorders

### C157 Paroxysmal Movement Disorders

### C162 Nonmotor Manifestations of Parkinson Disease

### MS and CNS Inflammatory Disease

**C4** Neuromyelitis Optica: Scientific and Clinical Update

**C27** Controversies in Multiple Sclerosis Therapy

**C51** Diagnostic Dilemmas in Multiple Sclerosis

**C66** Multiple Sclerosis Overview I: Basic and Translational Science

**C80** Multiple Sclerosis Overview II: Clinical Advances

**C88** Morning Report: Multiple Sclerosis

**C111** The Promise of Novel Biomarker Approaches in Advancing Treatment

**C128** Case Studies: Multiple Sclerosis

**C137** Multiple Sclerosis Therapy I: Symptom Management

**C151** Multiple Sclerosis Therapy II: Disease-modifying Treatment

### Neuro Trauma, Critical Care, and Sports Neurology

**C10** Critical Care EEG Monitoring

**C15** Severe TBI: From ICU to Rehabilitation

**C31** Sports Concussion and Other Mild Concussive Injuries

**C47** Sports Neurology: Non-Concussion Overview

**C15** Pediatric Neurotrauma: From Coma to Conclusions

**C82** Emergency Room Neuro-ophthalmology

**C83** Concussion Assessment and Management in the Youth Athlete

**C95** Sports Concussion Skills Pavilion

**C120** Emergency Neurology

**C131** Neuro Flash: Child Neurology

**C145** Neurologic Intensive Care

**C165** Consultations in the Medical Surgical ICU

### Neuromuscular and Clinical Neurophysiology (EMG)

**C2** Small Fiber Neuropathies: Sensory, Autonomic and Both

**C11** Neuromuscular Junction Disorders

**C36** Peripheral Neuropathy

**C40** You Make the Call—An Interactive, Multimedia, Case-based Approach to Learning EMG

**C64** Clinical EMG I

**C78** Clinical EMG II

**C96** Evaluation and Management of Autonomic Disorders

### Neurology

**C23** Neuro-ophthalmologic Emergencies

**C28** Infectious, Paraneoplastic, Autoimmune? Diagnosis and Treatment of Rapidly Progressive Encephalopathies

**C14** Infectious, Paraneoplastic, and Autoimmune Encephalopathies: Advances in Clinical Diagnosis and Emerging Insights about Pathogenesis

**C71** Neuro-ophthalmology: Primary Brain Tumors

**C84** Neurologic Complications of Systemic Cancer

**C130** Case Studies: Neurologic Consultations in Cancer Patients

### Neuro-oncology

**C23** Neuro-oncologic Emergencies

**C28** Infectious, Paraneoplastic, Autoimmune? Diagnosis and Treatment of Rapidly Progressive Encephalopathies

**C14** Infectious, Paraneoplastic, and Autoimmune Encephalopathies: Advances in Clinical Diagnosis and Emerging Insights about Pathogenesis

**C71** Neuro-oncology: Primary Brain Tumors

**C84** Neurologic Complications of Systemic Cancer

**C130** Case Studies: Neurologic Consultations in Cancer Patients

### Neuro-oncology/ Neuro-otology

**11** New Windows into the Brain: Technological Advances in Frontline Neurologic Diagnosis via the Visual and Oculomotor Systems

**C16** Pitfalls & Pearls: Avoiding Common Diagnostic Errors in Neuro-ophthalmology & Neuro-otology

**C20** Canalith Repositioning for Benign Paroxysmal Positional Vertigo

**C45** Neuro-otology
C82 Emergency Room Neuro-ophthalmology
C89 Now You See It, Now You Know: Pathognomonic Neuro-ophthalmology Findings
C99 Neuro-ophthalmology and Neurovestibular Exam Lab Skills Pavilion
C104 Pseudotumor Cerebri
C113 Neuro Flash: Neuro-ophthalmology
C112 Obesity and Neurological Disorders
C144 Neuro-ophthalmology
C159 Eye Movement Disorders: A Systematic Approach to the Evaluation of Diplopia

Neuro-rehabilitation
C15 Severe TBI: From ICU to Rehabilitation
C93 Brain Computer Interfaces: Frontiers in Neurology and Neuroscience
C98 Myelopathies
C115 Morning Report: Lumbar Radiculopathy, Lumbar Spinal Stenosis, Low Back Pain, and Post-Laminectomy Syndrome
C146 Spine Neurology: Assessment and Management of Common Spine Disorders
C155 Physical Exercise and Cognitive Training in Neurological Disorders

Pain and Palliative Care
C53 Palliative Care for the Practicing Neurologist
C115 Morning Report: Lumbar Radiculopathy, Lumbar Spinal Stenosis, Low Back Pain, and Post-Laminectomy Syndrome
C121 Core Concepts in Pain Management
C146 Spine Neurology: Assessment and Management of Common Spine Disorders

Practice, Policy, and Ethics
C6 The Practice of Neurology: Issues in Coding and Reimbursement
C8 Clerkship and Program Directors Conference
C14 Advanced Neurologic Coding
C26 Controversies in Neuroethics
C32 Teleneurology and Technologies
C39 Leadership for Women
C43 Advanced Practice Provider Symposium
C53 Palliative Care for the Practicing Neurologist
C59 Leadership in Neurology: Be a Champion for Your Patients and Protector of Your Specialty with Payers, Policymakers, and the Public
C60 Resident and Fellow Career Breakfast: The Early Years
C70 Bedside Evidence-based Medicine: How to Find and Deconstruct Articles in Order to Take Care of Patients
C86 Improving Your Leadership Skills: A Practical Approach
C105 Neurohospitalist 2.0: Next Steps in the Evolution
C153 Practical Legal Issues for Neurologists
C168 Controversies in Brain Death Determination

Research Methodology, Education, and History
C5 Resident Basic Science I: Neuropathology
C9 Research Career Development Symposium: How to Be Successful in Academic Neuroscience
C13 Resident Basic Science II: Neuroanatomy

Sleep
C33 Hot Topics in Sleep Neurology
C49 Approach to Sleep Symptoms: Sleepy or Sleepless
C62 Interpretation of Polysomnography for the Practicing Neurologist
C117 REM Sleep Behavior Disorder
C112 Obesity and Neurological Disorders
C140 Sleep for the Practicing Neurologist
C156 Neuro Flash: Sleep Medicine
