WOMEN'S ISSUES IN NEUROLOGY PROPOSED STRATEGIC PLAN
(2015/2016)

Short Term (over next 2-5 years)
  a. The WIN Section would like to propose an INS session concerning sexual dimorphism.
  b. Propose senior women speakers for plenary sessions.
  c. The Women's Issues in Neurology Section would like to work with AAN to continue to foster a curriculum for early, mid, and late career development
  d. The Women's Issues in Neurology Section would like to increase the support for the Women's Issues in Neurology mentoring program (peer-to-peer)
  e. Exploring physician burn out among women neurologists.
      1. Salary differences
      2. Dealing with pregnancy and work demands
      3. Issues concerning work hours and family responsibilities

Long Term (over the next 5-10 years)
  a. Promote better care of women with neurological disorders (i.e. increase awareness of sex dimorphisms for disease phenotype and treatment)
  b. Better representation of women in education program and AAN committees
  c. Better prepare women to assume their position as neurologists, teachers, mentors, leaders, and researchers
